

RUN GREEN

RUN CLEAN

With the Envirofuge™

Proven Performance

The Envirofuge™ Centrifuge from MagStar Technologies removes more particle contaminants than standard filtration systems...down to less than 0.5 microns. A low cost solution to maintenance and environmental concerns, the Envirofuge™ extends time between oil changes.

- » By removing tiny particles of dirt and soot, proper lubrication continuously gets to your critical engine components.
- » Save money and the environment: Eliminate frequent oil changes.
- » The Envirofuge™ comes with a 5-year warranty you'll find nowhere else.
- » Reduce operating cost.
- » Reduce engine wear.
